

ENGLISH VERSION STOP VIOLENCE AGAINST WOMEN

SOLIDARITY TANGO WITH THE RED SHOES

Event conceived and created by Fatima Scialdone

A solidarity tango with red shoes", a symbol that unites tango dancers with all women who fight against violence and femicide!

Finding the embrace, the listening... the trust... regaining harmony and starting to create a path together again in Tango."

A hug is a primordial, strong and indispensable gesture against the loneliness of violence... it is a promise to listen on the part of the couple, and a reconquest of trust... a union of souls!

THE UNIVERSAL EMBRACE OF TANGO, the latter proclaimed a World Heritage Site by UNESCO in 2009, is a social and cultural expression that knows no boundaries of land, ethnicity, language, and social positions... it is a symbol of Peace and is care for every wound.

November 25th is recognized as the international day in support of "Stop Violence Against Women". This year the event is on 24 of november.

For such an important event, everyone is encouraged to participate in support of such a cause
